

Physical Therapy and Physical Therapy Assistant Schools in Arizona

[AT Still University-Arizona School of Health Sciences-ATSU](#)

AT Still University-Arizona School of Health Sciences-ATSU was founded in 1995 in Mesa, Arizona. The physical therapy school program has a rich history dating back to 1892 when it established the world's first osteopathic medical school, [Kirksville College of Osteopathic Medicine](#). AT Still University of Health Sciences provides a well-established track record of providing primary care training.

[Creighton University](#)

Creighton University's Physical Therapy Department in Phoenix was founded in 2019. Our doctor of the physical therapy program, which began in 2022, builds upon the many successes and rich history of our established sibling program in Omaha, NE. Our program possesses a commitment to excellence, service, and curriculum innovation. We are inspired to improve the human experience, address health disparities, promote physical and mental well-being, and work for a more just world where there is equity, diversity, and inclusion for all. The curriculum is designed to create master adaptive learners with strong clinical reasoning with a strong commitment to Ignatian values, interprofessional practice, leadership, and community service.

[Franklin Pierce University-Arizona](#)

Franklin Pierce University-Arizona and its physical therapy school located an [expansion program](#) in beautiful Arizona in 2009. With the same quality standard of education, this has allowed the Franklin University of Arizona to choose from a broad application pool outside of the United States borders.

[Midwestern University-Glendale](#)

Midwestern University-Glendale Campus and its physical therapy school graduated its first inaugural class in 2013. Its parent program, Midwestern University, has a long history dating back to 1900 when it established the world's fourth osteopathic medical school. [MWU](#) provides a well-rounded education aiming to have each student qualified to practice in any physical therapy domain.
